The First Chapter

Origins 1

Method 1

Results 1

Opening prose for the first chapter, before any subsection heading.

Origins

Text about origins.

Method

Text about method.

Results

Text about results, long enough that the chapter occupies more than a token amount of space.

The Second Chapter

This chapter opts out, so no contents list appears here even though the document enables them.

Background

More text.

Analysis

More text.

The Third Chapter

Consequences 3

Further Work..... 3

A third chapter, so the page numbers in the per-chapter lists differ from one another and a regression that prints the wrong page cannot pass by coincidence.

Consequences

Text about consequences.

Further Work

Text about further work.
